

sys/types.h

time.h

getdate.h

```
graph BT; getdate.h --> sys_types_h[sys/types.h]; getdate.h --> time_h[time.h];
```

The diagram illustrates the dependencies of the `getdate.h` header file. At the bottom, a black box with white text contains `getdate.h`. Two blue arrows originate from the top corners of this box and point upwards to two separate white boxes with gray borders. The left box contains `sys/types.h` and the right box contains `time.h`, indicating that `getdate.h` requires both of these headers to be included.
